RHODODENDRONS

SPECIAL OFFER 1921-1922

RHODODENDRON CATAWBIENSE (The Natives)

FIRST-CLASS PLANTS

Collected in North Carolina. In carlots. Plants are very fine, vigorous growers, collected with good roots and ball, as hardy as any Rhododendron grown, and will grow in any climate where other Rhododendron grow. Color of flower a deep pink or rose, tinted with lavender. Flowers of large size and as large as any hybrid, and as free bloomer. The foliage is fine, the top part of leaf is a dark green, underneath a lighter green or glaucous. These are the best of all Rhododendrons. We highly recommend these plants. Fine for massing.
